Delta Air - Delta said Tuesday it expects to have 3,000 new flight attendants for its summer 2022 schedule. Southwest and other carriers have also resumed hiring after air travel demand snapped back. Thousands of Delta and other airline employees took early retirement packages during the pandemic at their companies' urging as they tried to cut labor costs. (Source: www.cnbc.com)

Real Estate - Home prices rose 18.6% annually in June, up from a 16.8% increase in May, according to the S&P CoreLogic Case-Shiller national home price index. Prices are now 41% higher than their last peak during the housing boom in 2006. Home prices continue to surge due to strong demand and persistent low supply. (Source: www.cnbc.com)
